

Proposed “Hot Wells” Cell Site Towne Lake/Cypress Area

Stealth Project Solution Improving Coverage/Capacity for the Cypress Area

Presented by

Hot Wells Site Project – Cypress Area

Objectives

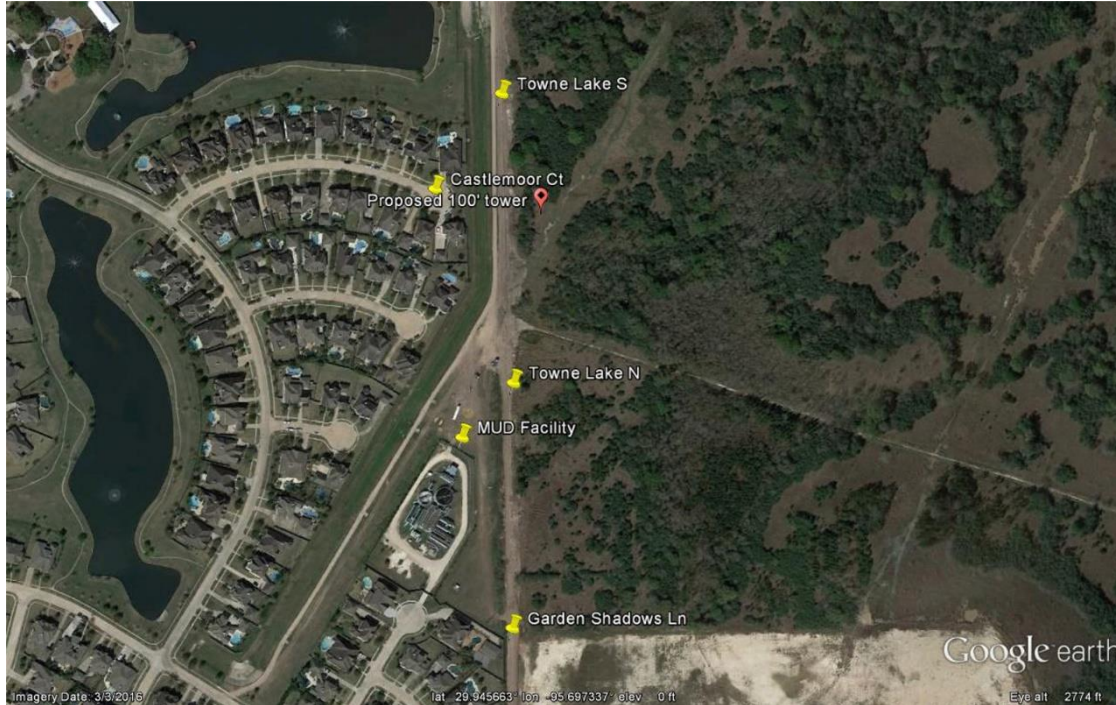

- The purpose of the proposed facility is to enhance wireless communication coverage and capacity in the Towne Lake residential and commercial development, surrounding neighborhoods and thoroughfares.
- Provide better, faster, and more reliable data service to the growing number of customers in that area.
- Provide more reliable Emergency and Public Safety coverage – 70% of E911 calls are made from wireless phones.
- Provide, better, and more reliable service to the Fire and Police Departments.
- Minimally obtrusive “stealth” flagpole cell tower solution proposed rather than a standard Monopole where antennas/other tower mounted equipment would be visible.
